YOUNGQUIST BROTHERS
15401 ALICO ROAD
FORT MYERS, FL 33913

Dear Permittee:

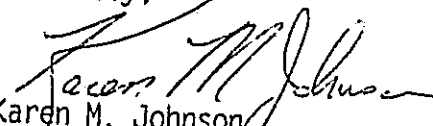

SUBJECT: PERMIT MODIFICATION NO.: 36-03254-P
Project: CORKSCREW WOODS
Location: LEE COUNTY, S21.28/T46S/R26E

District staff has reviewed the information submitted on May 9, 2000 (copy attached) from Brown Collins of Synecological Analysts requesting a modification to revise the mitigation/monitoring schedule for the subject project. The modification is necessary due to change in ownership of the project and an error in the consultants report file. As a reminder, the conservation easement was to be recorded by June 1, 1998 and an original or certified copy of the conservation easement document were to be submitted to the district.

District staff has determined the proposed modification is in compliance with the intent of the original permit and appropriate provisions of F.A.C. Rule 40E-4.331(2)(b). Therefore, the change to Special Condition Number 16 of Permit 36-03254-P issued on July 10, 1997 has been recorded into our files. Attach a copy of this letter and the revised schedule to the original permit for your records. Please understand that your permit remains subject to the Nineteen (19) General Conditions and all other Special Conditions not modified as originally issued.

Should you have any questions or require further assistance, please contact Shawn McCarthy at (941) 338-2929.

Sincerely,

Karen M. Johnson

SPECIAL CONDITIONS

1. PRIOR TO COMMENCEMENT OF CONSTRUCTION OF WETLAND MITIGATION, THE SFWMD SHALL BE NOTIFIED BY THE PERMITTEE OR AUTHORIZED AGENT (VIA THE SUPPLIED MITIGATION COMMENCEMENT NOTICE) OF THE ACTUAL OR ANTICIPATED MITIGATION CONSTRUCTION START DATE AND THE EXPECTED COMPLETION DATE/DURATION.
2. ACTIVITIES ASSOCIATED WITH IMPLEMENTATION OF THE WETLAND MITIGATION, MONITORING AND MAINTENANCE SHALL BE IN ACCORDANCE WITH THE FOLLOWING WORK SCHEDULE. ANY DEVIATION FROM THESE TIME FRAMES SHALL REQUIRE FORMAL SFWMD APPROVAL. SUCH REQUESTS MUST BE MADE IN WRITING AND SHALL INCLUDE (1) REASON FOR THE MODIFICATION; (2) PROPOSED START/FINISH DATES; AND (3) PROGRESS REPORT ON THE STATUS OF THE EXISTING MITIGATION EFFORTS.

COMPLETION DATE	ACTIVITY
MAY 1, 2001	SECOND MONITORING REPORT
MAY 1, 2002	THIRD MONITORING REPORT
MAY 1, 2003	FOURTH MONITORING REPORT
MAY 1, 2004	FIFTH MONITORING REPORT
MAY 1, 2004	SITE INSPECTION

RE: REQUEST FOR MODIFICATION OF COMPLIANCE MONITORING - PERMIT
NO. 36-03254-P
CORKSCREW WOODS
SECTIONS 21 - TOWNSHIP 46S - RANGE 26E, LEE CO.

Dear Hal:

The Year One report for the above referenced project and response to your correspondence dated 29 March 2000 are enclosed under separate cover. I would like to request the following modifications to the monitoring and permit effort.

- Acknowledge the attached report as the First Monitoring Report and modify the year two through year five reports to the following dates.

Year Two Monitoring Report	1 May 2001
Year Three Monitoring Report	1 May 2002
Year Four Monitoring Report	1 May 2003
Year Five Monitoring Report	1 May 2004
Site Inspection	1 May 2004

- Install five stand barb wire fence on the structural buffer instead of a split rail fence. This option provides at least as good a barrier at a fraction of the cost. There are no operational benefits to the rail fence in this location and climate.

Please call if you have questions or require additional information. A \$100 check for processing fee is attached.

Very truly yours,

Brown Collins

**RE: NOTICE OF NON-COMPLIANCE MONITORING - PERMIT NO. 36-03254-P
CORKSCREW WOODS - SECTION 21, TWP 46S, RNG 26E, LEE COUNTY**

Dear Hal:

The Year One report for the above referenced project is attached under separate heading. This correspondence responds to your notice of non-compliance dated 29 March, 2000. The following items were noted.

1) Subsequent to the Districts review of the baseline monitoring report staff received correspondence for Rae Ann Boylan dated June 25, 1998 stating that the time zero would be submitted upon completion of the eradication of the exotic vegetation. The time zero report indicated that exotic vegetation has only been removed along Transect 1 and 4 in the buffer of Transect 2. In addition, no exotic vegetation has been removed as evidenced in the additional photo points depicting the conditions in the upland preserves. We request that all exotic vegetation be eradicated during the current dry season and prior to the submittal of the next report. The primrose willow and caesarweed noted in the transect data should also be targeted for eradication.

Exotic vegetation removal is complete. The evidence of this is shown in many photos in the monitoring report.

2) The current monitoring program is one year behind the approved schedule. We request that a letter modification application be submitted for staff review. Please include the reasons for the delay and the \$100 processing fee.

A letter modification application is attached along with a check for the \$100

Suite 200, 2159 Morning Sun Lane, Naples FL 34119

processing fee. The report delay was a combination of change in ownership of the project and an error in the consultants report due file. Both these issues have been remedied. Please call if you have questions or require additional information.

Very truly yours,

Brown Collins
